

2010-2011

The Newport Harbor High School Aquatics Booster Club is a parent volunteer organization. Our collective purpose is to give support to the athletes and coaches of the aquatics program throughout their training and competitive seasons. This past year a variety of needs were met through the Booster's funds:

team dinners	water polo caps
Pentathlon swim event	starting blocks
relay lunches	goal backstops
bottled water service	travel to competitive tournaments
repairs to goals and lane lines	swim training videos & equipment
game day banners & signage	software upgrades

Other enhancements to our program were generously donated:

repair welds to lane line reel	pressure washing the deck
stainless steel robe hooks	bleacher banners
swim room window washing	yoga sessions
new flooring for the class room and swim room	

The Aquatics program also relies on our parents bringing "*after morning practice*" breakfast to our teams and volunteering their time at the gate, the snack bar, the starting blocks, and the bi-annual clean up days.

The success of Newport Aquatics is dependent upon every family's assistance and financial commitment. 100% participation ensures that each of us is contributing to the resources that our child is utilizing. While Booster membership is not mandatory, it is critical to maintaining our program's elite level that is a Newport tradition.

Booster participation fees are \$245 for water polo and \$225 for swimming. If you pay both sports together by October 1st, your discounted price is \$420. A sibling discount of \$25 per sport is given to the second (and third) child.

The benefits of Booster membership include:

- discount prices on clothing
- free team dinners
- free banquet ticket for the athlete
- 2 discounted banquet tickets
- a vote at the annual general meeting

Discounts are not available if membership has not been paid by October 1, 2010 for boy's and girl's water polo season and by February 1, 2011 for swim season.
